🌐 [LinkedIn](#)

Senior Product Designer with 9+ years of experience transforming complex user and business challenges into intuitive, impactful digital products. Experienced across B2B and B2C SaaS, financial services, healthcare, insurance and relocation technology, with expertise in end-to-end product design, user research, design systems and AI-enabled experiences. I combine user insights, product data and close cross-functional collaboration to deliver measurable outcomes, including increasing mobile adoption from 31% to 81% and reducing customer onboarding time by 30%.

Work Experience

Senior UX Designer | Settly

Oct 2024 - Oct 2026 | Amsterdam, Netherlands

Relocation management software for HR teams, internal operations and relocating employees.

- Led end-to-end design across products serving relocation employees, HR clients and internal operations teams, owning discovery, research, prototyping, testing and delivery.
- Redesigned key mobile and web journeys, contributing to an increase in mobile adoption from **31% to 81%**.
- Designed the UX for a centralized vendor communication platform, helping reduce median response time by **50% - from 34 to 17 hours and contributing to 40% higher user retention**.
- Designed AI-assisted messaging and policy management experiences that contributed to a **20% reduction in manual effort**, with approximately **30% of host messages no AI-drafted**.
- Led user research and usability testing, using qualitative insights and Mixpanel data to validate decisions and measure product adoption.

Senior Product Designer | Capricorn Group - Bank Windhoek

Sep 2021 - Aug 2024 | Remote | (Consulted via Procentrica)

Capricorn Group is a Namibian based financial and banking services provider.

- Streamlined the end-to-end customer web-based onboarding process flows, **reducing average onboarding time by 30%**, resulting in improved customer satisfaction and increased staff productivity.
- Created a comprehensive Figma design system digital platform guide that improved cross-team collaboration, design adherence and consistency.
- Improved user engagement by designing intuitive digital channels experiences across a variety of platforms (web, mobile, in-branch and self-service kiosks).
- Collaborate actively in cross-functional agile teams, taking full ownership of all design deliverables.

Education

Bachelor's Degree in Interaction Design

Feb 2014 - Dec 2017 | Pretoria, Gauteng

The Open Window Institute

UX/UI Designer | Discovery Limited - Discovery Vitality ZA

Jan 2019 - Oct 2021 | Johannesburg, South Africa | (Consulted via Glucode)

Discovery is a South African financial services company that specializes in healthcare, insurance and banking services.

- **Boosted user engagement for the mobile app by 20%** by integrating gamification and rewards systems, leading to increased user satisfaction and loyalty.
- Identified key pain points and user problems through usability tests and competitor analysis, used to inform design decisions.
- Mentored and collaborated with designers on best practices, platform guidelines and Figma design libraries.
- Led the design and launch of new app functionality alongside key senior stakeholders, bridging the gap between user needs and business goals.
- Implemented A/B testing strategies to optimize product design element sand solutions. •

UX/UI Designer | Discovery Limited - Vitality Group International

Feb 2017 - Dec 2019 | Johannesburg, South Africa | (Consulted via Glucode)

Vitality Group is a global insurance organization that offers behavioral change platforms and programs to partner markets.

- Enhanced mobile app customer experience and accessibility, leading to a **25% increase in user retention and a 15% decrease in customer support inquiries.**
- Identified and implemented cultural preferences from user data and research in target countries, resulting in an increase in app usage and positive user feedback.
- Customised and tailored mobile app functionality for reuse across global partner market apps.
- Designed full end-to-end user journeys for various app features that were translated into working prototypes and tested with both in-person and remote methods.

UX/UI Design Intern | Glucode

Oct 2016 - Dec 2016 | Johannesburg, South Africa

Glucode is a digital agency based in South Africa that specializes in mobile app design and development.
